Keene rolled up his sleeves for the flast strenuous piece of work in his most strenuous life, and the fur flew—the people's fur.

"In consideration of Keene doing the bob up brown—that is, doing people up brown—Standard Oil would subscribe one-half of the money necessary to float the new rubber company and loan its magic name to the enterprise. Hull Men Plied With Bribes and Liquor, It's Alleged.

[BY THE ASSOCIATED PRESS-P.M.] ST. PETERSBURG, Dec. 22.-{By At-ST. PETERSBURG, Dec. 22.—[By Atisnitic Cable.] According to a local
paper, a number of English fishermen
have appeared before the Russian Consul in London and have deposed to
having seen foreign torpedo boats
among the Hull fishing fleet. Their
depositions, it is added, will be submitted to the International Commission
now in Paris, the circumstances under
which they were obtained being explained.

LONDON, Dec. 22.—The publication of St. Petersburg of the statement that full fishermen have voluntarily deposed that foreign toppedo boats were among the trawlers off Dogger Bank when the latter were fired upon by ships of the Russian fleet is probably nothing more than a repetition of sim-liar statements emanating from Hull and appearing in London papers the last few days. These are circumstan-tial, and it would certainly appear to

tial, and it would certainly appear to be true that some men of the Gamecock fleet have made atatements before the Russian Consul.

The name of only one of these has been revealed. He is the boatswain of the trawler Ava and he said today that he was induced to make the statement while he was intoxicated. He admits he received a certain amount of money and now says the statement he made is untrue. The extraordinary tenor of his statements or any others has not been revealed.

All published reports from Hull say jositively that these statements were secured by two agents of the Russian government, but the Russian Embassy in London tonight repeated the denial

secured by two agents of the Russian government, but t.e Russian Embassy in London tonight repeated the denial that there is any truth in the statement that Russia or anyone delegated by Russia has been endeavoring to secure statements from the Gamecock fishermen in support of Russia's position before the Paris commission.

It was pointed out, however, that although Russia had offered a reward for information, the Russian government was not responsible for the course taken by any person desiring to secure the reward which would only be paid in the event that the information and the method in which it was secured were approved by the Russian government and shown to have been received from irreproachable sources. It was positively stated that the embassy has no knowledge and no information tending to support the report of the St. Petersburg paper alluded to. CHARGES DARK METHODS.

CHARGES DARK METHODS.
A portion of the press of England directly charges the Russian government with using underhand methods, by bribery and intoxicants, to secure false statements from men of the Gamecock fishing fieet. The Russian Consul at Hull tonight said the boatswain of the Ava was brought to his office but that he sent him to the Commissioner of Oaths, where, the Consul says, the boatswain swore the saw a Japanese torpedo boat with the to induce fishermen to make statements. One explanation of the whole matter emanates from Paris, where it is said that two reporters of the Petil Parisienne recently visited Hull in order to interview men of the Gamecock fleet and secure independent information concerning the Dogger Bank affair. As none of the newspaper reports assumes to identify the "agents" as Russians, being limited to calling them "foreigners employed by the Russian government" this is the most probable explanation of the story which, however, may possibly have a sequel

"I consider the action of the president to be presumptions and tactless. Questions of state administration are of no concern to the zemstvos, whose functions and rights are clearly defined by

The indorzement printed in the Official Messenger this morning dashes the hopes of the extremists. It does not come as a great surprise. The Emperor, from the beginning, although he had shown himself favorably disposed toward a more liberal regime and in entire sympathy with some of the zemstvo demands, had resolved not to yield the principle of autocracy. Upon this point, it is understood all his advisers, including Interior Minister Sviatopolk-Mirsky, agreed, but the character of the agitation which followed the meeting of the presidents of the zemstvos and the action of various provincial zemstvos and municipal councils, coupled with the recent demonstrations at St. Petersburg, Moscow and elsewhere, probably served to strengthen the hands

The reactionaries undoubtedly regard the Emperor's action as a distinct victory for them. Nevertheless, the conferences over the reform measures are still in progress at Tsarskoe-Selo and will shortly be published. What the immediate effect of the imperial rebuke administered to the unernigov zemstvo will be is problematical.

MOSCOW, Dec. 22.—At a meeting to day students of the University of Mos-cow adopted resolutions denouncing the rector for prohibiting their meetings. declaring their determination to un ceaningly sirve for the control of the oppressed fatherland and threatening that if they are punished for assembling they will organize manifestations in conjunction with the workmen. POLICE SERGEANT TELLS OF BLACKMAIL.

[BY DIRECT WIRE TO THE TIMES.]

Clusive Dispatch.] Sergt. Thomas P. Ellis, head of the Chinatown squad, it is stated, today confessed to the Police Committee of the grand jury, that he received secret orders from Chief of Police Wittman not to from Chief of Police Wittman not to raid Chinatown gambling dens, which paid \$2000 weekly into a corruption fund, and that under Wittman's orders he warned gambling houses of the recent raid that was to be made upon them. It is further stated that Ellis connected the local administration with the affair by declaring that Abe Reuf, the local boss, told him recently: "I don't want anyone to get hurt in this affair."

For some time the Evening Bullettin has printed exposures alleging that the Schmitz administration was directly responsible for gambling in Chinatown and for keeping open disorderly houses, dives and saloons at all hours. These exposures were so detailed that the Police Commissioners were forced to take them up, but they decided that

exposures were so detailed that the Police Commissioners were forced to take them up, but they decided that no one was convicted of any blame. Then the new grand jury was induced to take up the case, with the result of Ellis's confession, that promises to lead to sensational proceedings against the Chief of Police, and the accused Police Commissioners, as well as the Mayor.

WITTMAN MAKES DENIAL. (BY THE ASSOCIATED PRESS-P.M.) SAN FRANCISCO, Dec. 22.-In connection with the investigation by the grand jury of municipal matters, the statement was published today that Police Sergeant Thomas P. Ellis, who was in charge of the Chinatown squad had admitted to the Police Committee had admitted to the Police Committee of the grand jury that he had permitted gambling-houses to run in Chinatown, but that in doing so he acted under private instructions from the chief of police. No confirmation of the published statement could be obtained tonight. Sergeant Ellis refused to discuss the matter. Chief of Police Wittman denied that he ever gave any private instructions to pervaye any private instructions to pergave any private instructions to per-

nit gambling. Chief of Police Wittman tonight sent the following letter to the grand Jury:
"In the Evening Bulletin of this date
appears an article to the effect that Sergeant Ellis of the regular police force of this city had made a statement before a committee of your hon-orable body to the effect that I had ordered him to allow gambling to go on in Chinatown, in other words, 'to be easy on the Chinese gamblers;' he being specially detailed in the Chine quarter for the purpose of suppressing

JEWS' PLURAL MARRIAGE. ODESSA, Dec. 2.—The question whether Jews are prohibited by their eligion from contracting plural man

riages has been raised in the case of a man named Cronstein, convicted of polygamy owing to his taking advan-tage of the Russian law which recogtage of the Russian law which recognizes the legality of plural marriages where the religion of the contracting party authorizes it. Croustein appealed, alleging that although the practice was discontinued in western countries, the Jews were following the teaching of Gershon, as authorized by the Talmud and the patriarchs David, Solomon, etc., and that the practice was now being followed by the Israelites in the mountains of the Caucasus. The court allowed the appeal and summoned a rabbi to give expert testimony.

Letcher Pleads Limitations.

SAN FRANCISCO, Dec. 22.—George W. Letcher, the Santa Clara scounty capitalist whom the authorities of Observed are endeavoring to have extradited on a charge of arson, has taken his cause into the United States Circuit Court. Today, his attorney filed a petition for a writ of habeas corpus, basing the application on the grounds that the statute of limitations has long since run against the alleged crime, which is charged to have been committed twenty-four years ago, and that the warrant of arrest issued by the governor of Ohio is not in proper and legal form. The petition was taken under advisement of Judge Hunt, who will render a decision within a few days. In case of a denial, an appeal will be taken to the Supreme Court of the United States.

Mugan and Gray were placed on the stand and identified the document. After court adjourned, Miss Warren was surrounded by a number of friends who congratulated her upon her good fortune.

Engineer Newell on Colorado Irrigation Works.

Mexico Can't Show River's Navigability Suffers.

Conditions in 'Alaska-Imperial Land Case Pending.

BY DIRECT WIRE TO THE TIMES.] WASHINGTON, Dec. 22.—[Exclusive Dispatch.] Chief Engineer Newell of the reclamation service today delivered to Secretary Hitchcock his report on the reclamation service today delivered to Secretary Hitchcock his report on the engineering questions involved in the Colorado River irrigation project. This is a portion of the complete report that has been made by Secretary Hitchcock, including engineering, legal, and international questions to be considered by Congress in dealing with the Colorado Riv r as the source of the irrigation supply. This report will be made early next month, in pursuance of a resolution passed at the last session of Congress.

of a resolution passed at the last ses-sion of Congress.

Engineer Newell's report is under-stood to be very exhaustive, taking in all features of the project, so far as engineering is concerned, on both the California and Arizona sides. He also

engineering is concerned, on both the california and Arizona sides. He also discusses the situation on the upper reaches of the river and the questions relating to the diversion of the waters of the Colorado before they reach the proposed works near Yuma.

It is undershood that Engineer Newell scales down very materially the estimates heretofore made of desirable available land under the Yuma project in California. His estimate is said to be 755,000 acres, throwing out about twenty per cent of lands found to be alkaline or otherwise unavailable.

So far as the construction of the dam at Laguna affects the navigability of the Colorado River, Engineer Newell holds that such a work would be beneficial, and conduce to stendy flow the year around, instead of alternate low water and flood, as is now the case. Newell does not go into the international questions involved, leaving them to Secretary Litchcock's legal advisers, but he does hold that Mexico cannot maintain the claim that the navigability of the river will be destroyed by irrigation works and the diversion of surplus water.

report of the Governor of Alaska, John G. Brady, made public at the Interior Department today, estimates the total white population of that district at 26,550, with possibly a small increase in the native population since the 1900 census, which made the total number census, which made the total number of natives 29,536. The report says that this estimate for the whites will disappoint those who have steadily maintained that the number is more than five times the fixure given. No marked change has occurred in the native population. The Aleuts have decreased some, the Eskimos on the Yukon delta and the northward have probably held their own since their affliction four years ago, and the Thilngits, Hydaps and Tsimsheans of Southeastern Alaska are adjusting themselves rapidly to civilized life and are mostly a vigorous people.

regarding the development of the agricultural resources of that island. Secretary Wilson assured him of the agriculture in furnishing scientific assistance to the Porto Ricans. 'He pointed out the number of crops for which large sums are paid annually to foreign countries and which should be grown in the newly-acquired tropical possessions of this country, and told of the efforts of the department toward ultimately effecting this result.

Secretary Wilson cited the coffeetrop importations into this country, for which, he said, the American people pay in the neighborhood of \$70,000,000 annually to foreign countries. He said he hoped by giving scientific encouragement to the Porto Ricans to chable them to produce diner varieties of coffee in common with the greatest yielding varieties.

Secretary Wilson said that the American people pay foreign countries approximately 330,000,000 for ribber importations: \$50,000,000 for fiber, and large sums for drug plants, sub-tropical fruits, spices, etc.

[BY THE ASSOCIATED PRESS-A.M.] NEW YORK, Dec. 22.—Dean Fred-erick R. Hutton of the School of Applied Science of Columbia Univer-Applied Science of Columbia University, who has been ordered by President Butler to investigate the hazing of Kingdon Gould Tuesday, had a long conference today with the students in the party that chased young Gould down Broadway when he tired a revolver over their heads. The men were A. L. Gelhinger, president of the science sophomores; W. Bailey, O. K. Doty, R. W. Cauchoist and F. Lange. Dean Hutton did not seek to excuse Gould's action, but he said that it was never fair for a crowd to set on one man. If it had been one against one, the whole matter would have been legitimate. The fate of the sophomores is to be decided by the faculty today and announced tomorrow. Kingdon Gould has been asked to appear before Dean Hutton to give his testimony. INVESTIGATIONS CONTINUE.

re Run Down Several Clews hout Finding Facts in Colorado Springs Murder Case. (BY THE ASSOCIATED PRESS-A.M.)

COLORADO SPRINGS (Colo.) Dec. 22.—Several clues were run down today by the officers without establishing
the identity of the young woman murdered on Cutler Mountain.

Mrs. Mamle Swift, who disappeared

City Marshal Cree of Manifoly re-

City Marshal Cree of Manitou re-

City Marshal Cree of Manitou reported today the disappearance of a young woman, an invalid, who prior to three weeks ago, was living in a tent on the outskirts of that town.

This afternoon men began dragging in the Portland mill reservoir in the hope of finding the murdered woman's ciothing. This work was undertaken because a strip of blood-stained muslin had been found in the reservoir.

A statement made today by J. M. Davis, keeper of the toll gate at Cheyenne Cañon, raises a strong presumption that the murder was committed about 2 o'clock Sunday afternoon, December 18.

"I remember distinctly hearing a

cember 18.

"I remember distinctly hearing a shot fired on the side of the cliff, in front of the toll gate, about that hour," said Davis. "The reason I noticed it was because it is a _ainst the law to shoot in the cafion."

The police department will have printed 10.000 copies of the diagram of the dental work in the mouth of the murdered young woman. These diagrams will be mailed to 10,000 dentists, with a request that they be exhibited to all the professional acquaintances of the recipients.

If a whole lot of the schoolma'ams played "hookey" yesterday morning on account of the rain, and left the lecturers before the dozen different "sections" go begging for audiences, they rounded up in great shape for the first of the afternoon general sessions of the State Teachers' Association.

NEW APPORTIONMENT PLAN.

TODAY'S MEETINGS.

LADY DEAN WILL TALK.

The general session will be held in simpson Auditorium again this after-room at 1:30, the first address on the mention are readjustment in which he has unifmited confidence.

His address was an admirable one not alone upon this live question, but in other respects as [well, and it has the additional importance of undoubtedly reflecting the sentiment of the State administration upon a subject which is close to the entire people of the State. When interviewed on the subject later, Mr. Kirk said:

"I am sure my plan will work out to the greatest satisfaction of every school district and I shall go to work on a bill embodying my ideas immediately upon my return to Sacramento tomorrow, in order that it may came before the Legislature at an early day. The utmost harmony has existed between myself and Gov. Pardee upon the inequality of the results attained under the present law and we have had spirited discussions upon the question of ways and means of a readjustment, but everything has been with the very best of feeling between us, notwithstanding the efforts that have appeared in some quarters to make it appear that such was not the case.

"I brought with me an address prepared by Gov. Pardee, which will fully show his admirable attitude upon the school question, and which will be read before the association tomorrow."

In opening his address before the facehery vesterday. Mr. Kirk said:

still distributing State school moneys to the counties according to census children and for the fundamental principle or purpose of providing something approaching equal opportunities and advantages for an education to every child of the State, this method is shown to be a lamentable failure.

"On census basis, the least aid given by the State per schoolroom or teacher is to San Francisco, \$783; the average is 467. Los Angeles county is below the average, receiving \$406 per teacher.

"If it be fundamental that something near equal opportunities for education is the duty of the State to every child, then we may well bestirourselves for the discovery of a plan for apportioning the State school funds which will more nearly accomplish this fundamental purpose.

"Until about 1879 school funds, both

ourselves for the discovery of a plan for apportioning the State school funds which will more nearly accomplish this fundamental purpose.

"Until about 1879 school funds, both State and county, were apportioned to the districts by the county superintendents altogether according to census. He is now and for many years past has been required to determine the number of teachers to which every district is entitled by reckoning a teacher for every 70 census children, multiple of 70, or fraction of 70 not less than 20, and then giving \$500 for every teacher and distributing the balance or average daily attendance.

"For this county plan in general I have no improvement to offer, save that for every child in the fraction less than 28, \$25 instead of \$20 should be given, and thus stop the temptation to prevarieate and falsely report 20 children when there are but 18 or 19. The twentieth child under the present law is worth \$120 while the sixteenth, seventeenth, eighteenth or inneteeath is worth but \$20. I am of the opinion that the number in average daily attendance for the year, to avoid lapsing, may properly be rais 2 to eight or ten, instead of five, as at present. A school with but 5. or 6 children is either dying or already deal.

"But I recur to the distribution of State funds. He who finds fault with any system, assaults and tears downwithout endeavoring to build up or point a better way, may well be avoided. Having pointed out the unequal sums per teacher resulting from our present method of distributing the State school fund, I offer for consiteration the following plan:

"Let the State School Superintendent, showing such fact by application of the same rule which now governs the County Superintendent give to every county is entitled to, by a report from the County Superintendent, showing such fact by application of the same rule which now governs the County Superintendent in determining the number of teachers for every district. The totals of the districts would be the total for the county. Let the State Supe it, \$250 and let the balance of the State fund be distributed to the countes according to their average daily attendance, as shown by report for the last receding school year. The money thus given to the county to be distributed along with the county school funds to the districts. I have applied it to the state school apportienments of 1963 and 1904, and my conclusion is that 1250 for every teacher and balance on average daily attendance will give much nearer equitable results.

"My desire and recommendation is that the State add to the general school fund, over and above that which is now provided, enough money so that on the adoption of this proposed new plan of distribution no county will receive less State money than it is receiving under the present rvic. But I must leave this matter to the wisdom of our inwmakers.

"I have also under consideration a method which, by using a ratio on average daily attendance will save the taking of the school census. This plan has not been sufficiently elaborated or worked out in detail to determine fully its value and hence is only mentioned as a possibility at the present time.

BOUQUET FOR THE BUNCH.

tioned as a possibility at the present time.

BOUQUET FOR THE BUNCH.

"It is universally admitted that the salaries of teachers all along the line should be increased. If I might judge by appearances there is not one before me but is worth at least \$250 a month and entitled to a High School certificate. This matter of better salaries is not of more concern to the teachers than it is to the schools. Gool sularies may not always insure good teachers, but poor salaries may always be depended upon to be one of the most effective means for driving from the ranks the strong and the competent, and for holding the weak and the poor. With the adoption of something like my proposed plan of apportionment of the State school fund, anost of the counties would be benefited and could, without adding greater burdens than they are now sustaining, raise more school money by county, city or district tax."

TODAY'S MEETINGS.

TODAY'S MEETINGS.

the school question, and which will be read before the association tomorrow."

In opening his address before the taschers yesterday, Mr., Kirk said, following a reference to himself and the Governor.

It may have to yield my present position on this matter to look from the Governor standpoint upon that long train of bounty claimants who have not alimants who have not alimants who have not alimants who have not alimants who have preparation for the grades. The children thus graduated, according to them, made better readers, better where handling material, that the sources of State revenues have by recent constitutional amendments been materially curtailed. Every person with less than \$100 of property is now exempt from taxation, and many institutions, as Stanford University, the Academy of Sciences in San Francisso, and all churches, are no longer requised to pay taxes.

"The fact, however, remains," continued it is not worth having, and in this the Governor heartily agrees with mo. Therefore I suggest a readjustment of our present method of apportations is not worth having, and in this the Governor heartily agrees with mo. Therefore I suggest a readjustment of our present method of apportations, it is not worth having, and in this the Governor heartily agrees with mo. Therefore I suggest a readjustment of our present method of apportations of the case as proved the kinder article. velopment of the imagination alone was a great help in learning to read, as the child gets the suggestion of the story, and puts himself in the place of the one he is reading about, thus giving a power of dramatic expression. The eye training of the kindergarten, enabling the little one to distinguish the difference in leiters when he enters the primary grades, equals one-half year's further work, according to Miss Arnold. She also dwelt with power upon the value of the community life and its making for good citizenship.

Mrs. Lulu Mitchell of Santa Barbara has a record of provicing kindergarten material for four kindergartens for one year for \$58, and yesterday she talked about the cheap materials; though she does not believe that anything is too expensive if it is for the true good of those who are to make the future American citizens.

Mrs. Mitchell's marvelous accomplishment in Santa Barbara she attributes to the large out-door space allowed there, so that in many instances nature supplies the materials and the gardens, and the seeds and the beautiful plants afford material of a superior sort.

"If Los Angeles had ten garden plots," said Mrs. Mitchell, "set apart for the use of the little ones there would be no complaint about the expense of the work."

Possibly as there are forty-seven kindergartens in the city, it might require more ground than Mrs. Mitchell men-

Possibly as there are forty-seven kindergartens in the city, it might require more ground than Mrs. Mitchell mentioned, but she did say that when the children become more valuable than the real estate these things will be done, and the price of material wonderfully lessened. The close relation with nature possible here in California would do much to refute the accusation of particle like househt against the kinof artificiality brought against the kin-dergartens, in the mind of the speaker. Miss Isabel French presided over the section work, and gave some prac-tical illustrations to Mrs. Mitchell's talk of cheap material, and at the end of the session the teachers went to the kindergarten room to see the wonders wrought by the children with common things.

nmer Playground Work in New "Summer Playground Work in New York," given by Miss Maud Whitlock, was exceedingly interesting, as were the round table reports given by Miss Ledyard of Los Angeles, Miss Ada Brooks of Pasadena, Miss Barbara Greenwood of Pomona, Mrs. Holden of Santa Ana, Mrs. Mitchell of Santa Barbara and Miss French of the Nor-mal Training School.

SCHOOLMASTERS' CLUB.

HOLDS ANNUAL BANQUET.
The Schoolmasters' Club of Southern California held its annual banquet last night in the banquet hall of the State Normal School. About 150 members and guests participated, and the event was one of marked jollity and good fellow-ship. It also had its value in pro-ducing many excellent ideas from some of the leading educators of the State. After the substantial dinner, Presi-dent Everett Shepardson acted as master of ceremonies. The club memmaster of coremonies. The club members and guests arose and sang "America" with vigor and feeling. In a witty speech Prof. George L. Sackett. County Superintendent of Ventura county, and president of the Southern California. Teachers' Association, introduced Prof. David S. Snedden of Stanford University, whose theme was "Getting Together," Prof. Snedden spoke of the remarkable progress now apparer! in the public-school system. and said: "All over the State at present we find an educational restlessness—one that betokens growth and awakened life. A spirit of inquiry and of change is abroad, for the betterment of the public schools, and it is strongly promoted by just such gatherings as this."

Dr. F. B. Dresslar of the University of California was the next speaker, and he chose a therme out of the usual trends of after-dinner talks. Dr. Dresslar for the past eight, years has been studying the superstitions of the young people who are preparing themselves for the teaching professions, and has been making investigations on this line which are surprising.

He spoke of these last night, and said that he found few young teachers'

SMOKING JACKETS FOR LESS

As everybody knows, the Smoking Jacket season ends with Christmas, and we're not going to let prices stand in our way. We're going to get rid of every Smoking Jacket in the House today and tomorrow. There'll be something doing in the way of price cutting that will interest people who know quality and value. During the next forty-eight hours you can get men's Smoking Jackets at almost "any old price." Come see, then you'll know.

THE MONROE DOCTRINE.

DISCUSSED BY ELIHU ROOT.

IBT THE ASSOCIATED PRESS-P.M.1

NEW YORK, Dec. 22.—Elihu Root
was the chief speaker at the ninetyninth dinner of the New England Society of the city of New York at the
Waldorf-Astoria. His subject was "A
Corollary of the Monroe Doctrine,"
and he spoke in part as follows:

"The only relation that carries the
possibility of war for this country is
the declaration and adherence of the
American people to the so-called Monroe doctrine.

IN THE TIGER'S CLUTCH. GREATER NEW YORK BLEEDING, IBY DIRECT WIRE TO THE TIMES.) NEW YORK, Dec. 22.—[Exclusive Dispatch.] Despite Tammany's prom-ises. Greater New York is ruled by Van Wyck's term that the city rose in a spasm of virtue and elected Seth Low and a clean citizens' ticket. Then the spasm passed, and the city showed its gratitude for the cleanest, most

by turning Low and his associates out and turning itself over bodily to Mur-phy, McCarren and their ilk. phy, McCarren and their ilk.

McClellan, it is declared, has insolently tried to make the gus monopoly a present of \$6,000,000 in the past month, but was discovered and is at the end of his political tether. Now District Attorney Jerome makes the statement that the police force was never before so demoralised and corrupt as it is today. Gambling flourishes openly; red lights burn over the policemen's heads, petty crime flourishes as never before, and as a result, another civic upheaval is at hand.

rived here on board the Messageries Maritime packet.

Lieut. Valrond of the torpedo boat ship Kamchatka was interviewed and sai dthat he was conveying to Emperor Nicholas the reports of the commanders of the warships present at the Dogger Bank incident, together with Vice-Admiral Rojestvensky's report. He was also taking for investigation the original tapes of the wireless instruments, showing the messages exchanged between vessels of the Baltic squadron at the time of the firing upon the Gameoock fishing fleet.

Lieut. Valrond says he worked the searchlights aboard the Kamchatka and that he saw plainly two 4-funcled forpedo boats, their color being dirty grey whereas the Russian torpedo boats were black. When he perceived these boats pursuing the squadron the order to fire was given.

Chinese report that Field Marshal Oyama and his staff have established headquarters at Liao Yang and that the Japanese are constructing new forts around the city.

The Japanese are reported to be suffering severely from cold and sickness in the vicinity of Palaszandzi and Shillikhe, where it is said they lost 2000 men in a single week.

The Orenburg Cossacks captured six Japanese scouts on December 21, four of whom were badly frozen, two having to have their feet amputated. The game Cossacks recently captured seventeen Japanese who were unable to fire a single shot when they found themselves surrounded.

DISINHERITS

Wealthy Woman Leaves All to Beauty Doctor.

Charged Daughter With Cruelty to Her.

Effort Now Being Made to. Break Her Will.

Denounced by her dying mother and disinherited, Mrs. Maud Lee of Den-ver has come to Los Angeles to break the will of a strange old "woman of mystery" named Emma Ross Biddle—

her mother.

Two days before her death, Mrs. Biddle made a will cutting out her husband and this daughter, Mrs. Lee; left her entire estate to a woman beauty doctor, Mme. H. Bradley, of this city.

As the estate includes Klondike mining claims of unknown value, in addition to Los Angeles real estate, the husband is said to be also prepared to fight the will as soon as the daughter gets through.

him. He said he did drink a little too much.

"I wrote East and I understood that some of the relatives in Cleveland were hiring a lawyer to protect the interests of the daughter in this matter. After the funeral, an old servant also came to see me. She first claimed that Mrs. Biddle owed her \$300, but she finally cut it down to \$60 and wanted the diamond earings. She finally wanted to compromise on one earing and \$60."

Luther Brown Esq., said that his client, Mrs. Lee, was not at present in the city. He would say nothing regarding the case other than a denial of the assaults upon her character.

"What I have to say will be in court," he said. Mr. Brown, however, expressed every confidence in being able to break the will. She says the will was witnessed put into Mme. Bradley's house. She claims that her mother was under the influence of opiates for weeks, and was not capable of making a will. Back of it all there is something mysterious that has not been told. As

friend. "They have always called me a woman of mystery." The reason for this may come out at the coming trial. The daughter has retained Luther G. Brown, Esq., and Mme. Bradley, T. I. Woolwine, Esq., and the prospects are there will be "doings." The formal contest has just been filled.

Mrs. Biddie died in this city September II, two or three days after she made this will disinheriting her daughter and her husband. She had lived at No. 1339 East Adams street, and seemed to have some reason why she did not want the neighbors to know about her new will.

It is said that she had been married five times and it is claimed that she went away from one of her husband with \$18,000 of his money, and that she had other remarkable experiences in her life. In Seattle, her husband was George Lomar, and she was divorced from film there. She used to be a Mme. Le Noir, a famous modiste in Sait Lake City. While she was in Seattle she got possession of a number of Klondike claims on Solomon Creek from a Swede.

It is admitted by all parties to the fight that she was moved to Mme. Bradley's while on her death bed, and that a perfect stranger was called in at night to witness her will.

Frank F. Fratt, a life-insurance agent, who admits having managed the Basking of the new will, stated his side of the story frankly yesterday.

"Last August," he said, "I was in the real estate business. Dr. W. W. Beckett of this city recommended me to Mrs. Biddle, who was then very ill and who wanted to sell her house on East Adams street.

"I went to the house to see her. She was 'poorly' and I understood she had kidney trouble. She told me the doctors are the proper of the content of the doctors are there months to live. She

Adams street.

"I went to the house to see her. She was 'poorly' and I understood she had kidney trouble. She told me the doctor gave her three months to live. She said she was without money and I bought her some groceries and provisions. During one of our conversations she said she wanted to make a will; she said she had made three wills. She supposed some people might think her capricious. I told her to wait and think it over.

"A few days thereafter, the nurse telephoned to me, saying that Mrs. Biddle was sinking and wanted to see me. As I am admitted to the bar, I took two will blanks out to her house and made the will as she directed.

"She said she wanted all the property left to Mme. Bradley, a dermatologist of No. 703½ South Broadway, Los Angeles, who, she said, had been like a sister to her; who had put her on her feet in Sail Lake City when she was very poor.

"I suggested that she remember her

yery poor.

"I suggested that she remember her daughter and her husband; but she said: 'Don't speak of that woman to me; she's a bad woman.' She said that her daughter came to see her last spring and stayed three days, during which time she '(the daughter, Mrs. Lee) had abused her every way possible."

In the middle of Mr. Pratt's story, it

that the mother was turned against her when her mind began to fail. Mr. Pratt continued: "She offered to give me the Klondike mining claims for my services but I told her that I was not doing this for money but to help an unfortunate woman. As there was no one there to witness the will, she suggested that I go out and find some one else. She said that she did not want me to get any of the near neighbors; she did not want them to know her affairs; she said they knew too much already. "I' went out on the street—It was then about 9 o'clock—and walked around aimlessly. Finally I saw through a curtain a man whose face I liked. He was slitting before a fire. I rang the doorbel and asked him if he would come with me on a mission of mercy. "He turned out to be W. B. Johnston." NEAR COAST.

was sitting before a fire. I rang the doorbell and asked him if he would come with me on a mission of mercy.

"He turned out to be W. B. Johnston who works at the Pine Box Factory." To interrupt Mr. Pratt's story again, Johnston had decided missivings about this mysterious call for his services. He excused himself and went into his back room and loaded himself with a big six-shooter before accompanying Pratt to the dying woman's bedside. Pratt went on:

"She put on her spectacles; read the will, and signed it. The next day, she asked me anxiously if the will was perfectly safe and told me she never had done anything in her life over which she felt more satisfaction. She told me she wanted to be moved to Mme. Bradley's so she could be near her to the end and also so her death would not affect the sale of the house when it passed into the hands of Mme. Bradley.

"The next day after we moved her, which we did, right away, in the Bresee ambulance, she died. Mme. Bradley had her buried at her own expense. After her death her husband came to see me. He said he couldn't understand how she could have forgotten him. He said he did drink a little too much.

"I wrote East and I understood that Thirty Thousand Acres to be Subdivided.

Thirty thousand fertile acres and water-bearing lands lying between Los Angeles and the ing and grain farming, are about to be added to the highlyimproved area of Los Angeles

By the terms of a deal just consummated, the vast tract comprised in the Ranchos San lea passes from private ownership by ex-United States Sencadia B. de Baker, into possession of a wealthy syndicate of Los Angeles and Santa Monica improve and subdivide the property into lots suitable for small ranches and town and country

The Santa Monica Land and Water ompany, capitalized for a million del. lars, with no stock for sale and with its capital fully paid, has come into possession, through purchase from ex-United States Senator John P. Jones rear door to the store had been forced open, and Patrolman Henderson was notified. In a very few minutes Sergt. Williams and a squad of officers had the place surrounded. An extensive search throughout the Christopher basement and several adjoining buildings was made, but the burgiar evidently escaped while the watchman went to call the police. The thief secured nething. United States Senator John P. Jones and Mrs. Arcadia B. de Baker, of approximately 20,000 acres of the Rancho San Vicente and Rancho Boca de Santa Monica. This property was purchased in 1875 by Senator Jones and Col. R. S. Baker and has until the present day been utilized for agricultural purposes. This season about 2000 acres of the tract were devoted to the production of hay, barley and beans.

The purchase embraces the water-bearing lands which supply the city of Santa Monica; also the artesian tract to the west of Sawtelle, which is now being developed. It also covers the Santa Monica Water Company and its extensive holdings and franchises throughout Santa Monica.

Generally described, this land embraces everything from Seventeenth street in Santa Monica east as far as Sawtelle and north from Montana avenue to Santa Monica Cañon.

The land is all fertile and occupies a commanding position overlooking San-ta Monica and the sea, on the west, work that is planned for the early future is certain to result in the ultimate
settlement of every acre of the tract.
First of all, the water-bearing lands
will be further developed so that as
fast as the ranches are subdivided into blocks and lots, each subdivision
may be supplied with water. Surveys
with this end in view are to be made
and the details of the general plan of
subdivision are now being worked out
by the promoters of the enterprise.
The transfer includes also a narrow
strip of land embracing several hundred acres and extending westward
along Santa Monica Cañon from Sevcuteenth street to Ocean avenue. This
will be included in the general system
of development.

day Wetting the Christmas

A gentle rain, falling all day yester day, reduced the streets to a goose-gravy and brought up the season's rain-

gravy and brought up the season's rainfall to 1.85 inches.

The rain began falling at 3 o'clock yesterday morning and kept up an occasional drizale until well into the afternoon, the sun going down at last in clouds that promised more rain. During the day .39 of an inch fell.

Rain is good, but it does not help Christmas shopping. Santa Claus, sitting on one of the street corners to advertise a drygoods store, had the bitter mortification to have his luscious rosy cheeks melt away and run down in a dirty streak into his beard. Almost every woman in the great Christmas crowds carried a man-eating umbrella, some of which must have Christmas crowds carried a man-eating, unbrella, some of which must have gone home last night dripping with the gore of perforated masculine shoppers and decorated with people's eyes which had been gouged out.

SUPERINTENDENT'S REPORT.

Park Superintendent LeGrande's annual report was presented and referred with favorable recommendation to the Council. Mr. LeGrande made no requests for increased appropriations, or more park area, devoting his entire report to a description and statistical resums of the year's work.

He explained that the greater portion of the money expended during the year was for "invisible improvements," meaning work placed underground or done in such a way that it did not attract the attention of the casual visitor. Thousands of dollars were expended during the year in filling holes, cutting down hills, rip-rapping lakes, and laying water pipes.

attract the attention of the casual visitor. Thousands of dollars were expended during the year in filling holes, cutting down hills, rip-rapping lakes, and laying water pipes.

Many improvements were made atfiffith, Sunset and Sycamore Grove parks, preparatory to laying out miniature landscapes and planting shrubs and flowers.

During the year the water system of the parks was remodeled so that the parks are now connected with the domestic waterworks system, instead of with the old sanjas.

Superintendent LeGrande said that the water in some of the park lakes had been a source of complaint from the public through its scarcity and fill-smelling state. This, however, the Park Department, as the water supply is not under the control of that body. When the Water Inspector, following instructions from headquarters, says to shut down the gate and not run any more water luto the lake, the gates must close.

WORK IN GRIFFITH PARK.

During the year four miles of new drives were graded in Griffith Park. In top of the Water Department conduit near the river side. This road protects the cement water pipe and at the some time makes a grand seenic drive. More than forty miles of trails were out through the chaparral in Griffith Park during the year. Eastlake Park, which for several years has had a zoo in embryo, has now a first-class zoo, in which are a number of rare and valuable animals. Shrubbery in Eastlake Park suffered during the year, cowing to a shortage in the water supply.

During the year the water system at Westlake Park was greatly improved by replacing the old and rotten pipes with new ones, and by getting connections with the domestic wat.r system.

Over 15,600 cubic yards of earth was dumped into the lowlands in Echo Park during the year. The improved portion has been extended farther nouth and the park is now one of the pretition in the city.

Many trees were planted in Sunset Park during the year, and the low portions were filled in so that many improvements can be made that have heretofore been impossible. Water pipes have been made.

Sycamore Grove was added to the list of city parks during the year, and waiks have been made.

Sycamore Grove was added to the list of city parks during the year than any park superintendent LeGrande has probably accomplished more with his appropriation during the year than any park superintendent who has preceded in the laborers in the department than it generally expected of city employs. One reason for this is that he has inguisted all year that no man shall have a place in the department who is not capable of doing a good day's work.

The result is that the laborers in the contractors to the stand to show that parks are almost without exception on Ellis's word work had to be rehard workers. RAILWAY PRANCHISE MUDDLE.

attached to his having fallen into a state of mental decay.

About five years ago one of the smart boys in the vicinity of West Eighth street placed a bomb between Mr. and Mrs. Lovewell and then stood in the shadow waiting to see the fun. When the bomb exploded Mr. Lovewell was so injured that the sight in the left eye disappeared forever, and the left side has since appeared to be partially paralyzed. Shortly after that piece of boyish deviltry had been perpetrated, a son—the only coild of Mr. and Mrs. Lovewell—Went chasing moonbeams, and has not since returned. his commands, have a wholesome respect for him. He orders them around in no uncertain terms, and they "step lively." The steamship officials never indulge in any "monkey business" when they are dealing with Moseman. They know him of old—no trifling goes with him.

Charles Frohman considers Moseman one of the most valuable men in his employ. It's a job where experience counts; to break a new man in to such a delicate task would bring about untold confusion—for a year or two, at least. Wide acquaintance is the great necessity—and Moseman has it. He used to be in the customs service himself once—that was before he twam into the ken of Charles Frohman. He knows the methods and he knows the men. There's no waste of time, money or words with Moseman. It's all done with dispatch, and the popular darling's trunks are at her apartments almost as soon as she is. It is uncertain what Moseman's official title is. Though he does lots of useful things, he is chiefly known as the Meeter. Really all the transportation arrangements of the Frohman companies are under his control. Though his duties in this direction do not bring him into view as much as his journeys to the docks, they are quite as interesting and even more complicated.

That is a good deal of corn. Imagine Central Park's 843 acros floored over—lakes, drives, and all—for one gigantic bin. It would need to be eighty-three feet high to hold this one year's crop. MIGHTY FALL TAKEN OUT OF SAN PEDRO BOWLERS.

Celebrate Opening of MacKenzie's New Bowling and Billiard Resort by Rolling up Phenomenal Score. Simpson and Lacey Lead in the

Alf MacKensie's Colts celebrated the formal opening of their new home last night by taking an adult fall out of the Southern California Bowling Asso-

the Southern California Bowling Association's tournament record. What they incidentally did to the San Pedro quintette was nothing less than a burning shame; the lobster harvesters were pinched by 722 pins, which is what Pat calls the "length and breadth of a fine beating."

The San Pedros were up against it from the first ball; as the MacKenzies pulled the throttle wide open and tied it there, only one of the team averaging under 196, Pearne being the backsilder. A bad game of 159 was his undoing, but at that he finished with an average of 177.

The MacKenzie Colts won all three of the games, and with their grand total of 2022 pins here the same average of 187.

average of 177.

The MacKenzie Colts won all three of the games, and with their grand total of 2927 pins beat their high score of last year by a few points. It is safe gambling that last night's record goes good for the present season.

A large crowd of bowling, billiard and pool enthusiasts filled MacKenzie's new resort to watch the games. A band which MacKenzie dug up for the occasion discoursed music of various degrees of elegance. On the second floor the billiard and pool tables are placed while on each of the two upper floors are four bowling alleys of the latest design. These alleys are new, and the fact adds even more luster to the Colts's achievement of last evening. On the top floor MacKenzie's doubles tournament was in progress. At a late hour Simpson and Lacey had a comfortable lead, having averaged about 200 in the night's rolling. There was a heavy entry and the event was still undecided at midnight.

Last night's tournament scores follow:

Rides Three Favorites but Not in the Money.

Mud Has Bad Effect Upon Dope Students.

Cincinnatus Brings Tears by Long Shot Victory.

It might be just as well for Jockey Hildebrand to take a couple of weeks off and go into the backwoods for a rest. The vacation won't hurt him and it would do the sports a world of good, with Christmas day so close at hand. Yesterday this crack rider of America and possibly the world, was on three hot favorites and could not get in shooting distance of third place even with any of them. In another race he was on the good second choice Tim Payne and finished third because the only other horse in the race couldn't run.

Now this may be the way to make a

only other horse in the race couldn't run.

Now this may be the way to make a good reputation, but the paper in the case must be shown. It may not be the boy's fault and probably is not, but so many of the sports have gotten into the habit of playing Hildebrand on account of his reputation that when he can't even get into the money with his mounts a more or less large sized roar goes up and he is branded many rude titles. This was because he happened to be riding horses that figured to win the races they were in but he would doubtless blame all of his misfortune on the muddy track.

As a matter of fact the mud should excuse anything and the snan who could pick two winners yesterday must be little shy of a wizard. Everyone tried to guess six and the resuit was that the books made a good clean up. Bragg being the only favorite to win and he was not played very strong on account of the fear that he would sulk and finish last again. Medium priced horses won by a block almost and the sports had many a hard bump in their efforts to get rich quick. As an illustration of what a time they shad it is stated that every storse that won and every one running second, went up in the betting from what was offered at the opening, the only exceptions being Funny Side in the third race and Susie Christian in the last, both of these finishing second. It was a wild scramble to get down right and very, very few could do it.

The most startling result of the "rain" was the running of Cincinnatus in the fifth race. In his last two times out he ran a bad fifth and yesterday he went out and beat the same kind

of horses almost half a block, or eight of horses almost half a block, or eight lengths. It was about the most shocking from reversal one could ever dream of if he would eat six mince pies a day for a month and half the sports who saw him win rubbed their eyes to wake themselves for they supposed he had been dead and buried for days. He was certainly a great astonishment and all the more so when the Major, to a flying start, led him four lengths at the half.

to a flying start, led him four lengths at the half.

This Cincinnatus race was the one that gave the form players the big headache for the favorite McGrathiana Prince figured to have a walk-over on his last race. He was thought to be a good mudder and in addition to this ran second to Chub in his last out, when he beat Cincinnatus almost six lengths. Yesterday the Prince stuck out so far that he was made a 3 to 5 favorite, but although he broke first he was never in the performance after the start. The start was bad, the field being strung out with All About practically left at the barrier and the Major off to a flying start.

The new horse Blue Coat easily won the two-year-old race from Belle Kinney, the foot form favorite Tramator with Hildebrand up finishing in seventh place almost twelve lengths behind the winner. What the sports didn't have done to them in this race is past recounting and while the form chart states that Tramator appeared unable to extend himself freely in the going, a number of sports remarked that all of the horses that Hildebrand rode yesterday seemed to be troubled with the same weakness, and all were favorites too.

Bragg won again in the fourth race at a mile and doing it easily without

the same weakness, and all were favorites too.

Bragg won again in the fourth race at a mile and doing it easily without sulking. He opened the favorite, but the strong play on Tim Payne with the crack jockey Hildebrand up, sent Bragg's price from even money to 3 to 2. Payne couldn't even get second place after leading into the stretch by a length from Bragg, the new horse Sheriff Bell getting the place money. The over-due Dorice took the first race easily from a bad field of eight and Cerro Santa ran away with the third, after leading all the way. The last was taken by the outsider Entervescence in a hard stretch drive from Susie Christian.

Form players will do well to be careful today of any selections on account of the heavy track for more long shots are liable to slip through.

HANDICAP ENTRIES.

Entries were issued yesterday for the Hollywood handicap, the first big stake of the Ascot meeting, which is to be run off next Monday. Thirty-six horses were entered but it is not likely that over ten, if that many, will face the starter. Of the entries it can readily be seen that there are eight or readily be seen that there are eight or ten who would have no more chance than a cow, according to what they have done so far, and that is the only line the dope student has to grab to. line the dope student has to grab to.

The race is for two-year-olds and upwards at one and one-sixteenth miles, and there is \$1250 added money. The cntries and weights are as follows:

TAX COLLECTOR BURKE RESIGNS.

SANTA BARBARA COUNTY OFFI-CIAL HAS HAD ENOUGH.

His Accounts Straightened Out but He Does Not Court Further Trouble. War Against Union Oil Company's Proposed Pipe Line Renewed With

[SPECIAL CORRESPONDENCE OF THE TIMES.1 SANTA BARBARA, Dec. 22.-Edmund M. Burke, County Tax Collector has handed his resignation to the Supervisors to take effect at once. Mr. Eurke was alleged to have been \$12,-606 short in his accounts about two months ago. An expert was put upon his books and discovered that there were many irregularities. The matter, however, was amicably settler. ter, however, was amicably settled ter, however, was amicably settled without any criminal charges being made against him, his bond company making the amount good. The grand jury at its last session recommended that he be removed from office by process of law, which action was called up in the Superior Court by the prosecuting attorney. The case is still in the courts. Mr. Burke's resignation is dated December 20, and was sent to the chairman of the board at sent to the chairman of the board at Lompoc. The chairman has called a special meeting of the board to act upon the resignation, December 30.

pany in this city is still being waged with unrelenting force. After a strong public protest against that company's proposition to use the city's pleasure wharf for its oil-pipe lines, the company changed its plans, and petitioned the City Council for a permit to lay a pipe line to the commercial wharf; but still objections are raised against this proposition.

At last night's meeting of the directors of the Chamber of Commerce, several hours of a heated discussion on the subject were indulged in by all members present, the majority being opposed to having any oil pipe lines laid to the beach in this city. The fellowing resolutions were passed and a committee instructed to circulate them for signatures:

"Whereas, The Union Oil Company, having, under pressure of public sentiment, abandoned its original project of securing the consent of the people of Santa Barbara through the City Council, to use our valued bathing grounds for unloading crude oil from steamships over the pleasure wharf to tanks near the power-house, now seeks the privilege of laying its pipe line over the Stearns wharf; and,

"Whereas, It has been practically demonstrated in the business of this same company that such transportation of oil, to or from the holds of ships is always attended with more or less contamination of the water with floating oil; and,

"Whereas, Such pollution of our surf at or near our popular bathing grounds would soon destroy one of Santa Barbara's chief attractions, and thus work setious injury to our city;

"Therefore, We the undersigned citizens of Santa Barbara, do most earnestly pray our City Council not to grant this said corporation any franchise, right or privilege over any wharf or territory' contiguous there-to."

HENRY'S POSTAL PROJECT.

Representative Henry of Connecticut has introduced in the House a bill "to secure the full use of the United States rural mail equipment, and to place the rural service on a paying . The provisions of this bill, viewed from the standpoint of the present development of the rural servprovides that "within the limits of the respective rural routes served by postwagons, parcels of mail matter shall or license, who obey the laws applic collected and delivered, house to house, by the carriers, in weight up to a barrel-no parcel, however, to be more than six feet in length.'

This will be, indeed, something of an innovation-delivering postal matter by the barrel or by the bushel, in weight up to 200 pounds. Mr. Henry's shall be longer than six feet. It will readily be perceived, no doubt, that parcels of over six feet long or in dions exceeding those of the ordinary barrel of commerce, would present certain difficulties which the carrier might find it rather hard to overcome, unless he were accompanied on his rounds by a trained athlete. It isn't easy to compute the exact number of barrel, or bushel, or six-feet long "parcels" the rural carrier would able to get into his mail bag at one time, but it is entirely safe to say that the number could be ex-

pressed in three figures. The rates of postage to be paid on measure are as follows: One cent for measure are as follows: One cent for the earthquakes on Panama might the control of the earthquakes on Panama might the control of the earthquakes on Panama might the control of the earthquakes on Panama might the cause leaks in our canal when we have it built. Thick slept the dust upon the King's Highway, or woke in clouds of brown at the touch of the wandering breeze, to drift across the meadows, the fields and the roofs of the restless town. White shone the sands in the river's echoless bed and the stretch of the hushed arroyo. South, from Tenach-epi to San Diego's dream-wrapped bay, the world was sick with the de-bauchery of Summer's golden kisses.

THE SONG OF THE RAIN.

Then, one night, as the land sank down to tossing dreams, with the waning fever of worn passions in its veins, the pitying sea breathed upon it from its soul of tears. Dim waned the stars, and across the moon was hung the dripping cloak of the clouds. So, sweet and soft and low tinkling. A. 126. Then, one night, as the land sank now like the bells that swing from fairies' wands, and, anon, trembling into the cadences that sweep the night wind's lutes, came the song of the rain. And the land awoke to the rapture of the song, and its brows were cool with the balm of peace.

A pension received by a soldier of the Civil War from the Federal government is held, in Bailey v. Bailey (Vt.) 65 L. R. A. 232, to be properly taken into consideration as part of his resources, in fixing the fu. 're alimony to be paid by him, when his wife is granted a divorce, although, under the Federal statutes, it is not subject to selsure by any legal process until it has reached his possession.

Schumann-Heick, Melba, and all the rest—yes, they sing very well. Sarastic with his violin, and Ellery's buglemen—they make fine music, to be sure. But, oh, dear heart, when you wake in the night and hear the song of the California rain as it sweeps across the dim hills from the misted seas, then you know there is no other music, unless it be the melodies of the choirs invisible that sing to the golden harps around the Great White Throne.

The capture of Kekwan fort was of the utmost importance, says Tokio. It cuts no ice at all, and we didn't want the blamed old hump ou the ground, anyhow, says 8t. Petersburg. So, there you are. You can look at it whichever way you like, or you can forset it. But as long as old Stoessel is inside the breastworks it isn't wise to do much betting on the news from the Japanese war office.

The holder of a purchase-money mortgage is held, in Hinton v. Mutual Reserve Fund Life Asso. (X. C.) 65 L. R. A. 161, to have no insurable interest in the life of the wife of the mortgagor, who did not join in the execution of the mortgage debt.

Breach of a condition in an insurance policy on a building and the furniture, structure, etc., and the stock of goods therein, requiring the insurance policy of the stock at stated intervals, to keep a set of books, and preserve such inventory and books in a fire-proof safe, and providing that the entire policy shall become null and void for failure to comply therewith, is held, in Miller v. Delaware Ins. Co. (Okla.) to the insurance on the building and its ontents are described separately, and the insurance is apportioned between the building, the fixtures, and the merchandise, a certain amount being special for sach.

BRITAIN'S NAVY.

CHARACTER SKETCH OF SIR JOHN FISHER.

A Still, Strong Man With a Fascinating Personality — Detests Anything Like Notoristy—How He Won the Favor of Queen Victoria—At The Hague Conference.

[Pittsburgh Dispatch:] Admiral Sir John Fisher, who has just assumed the position of Senior Lord of the Sea in the British Admiralty and who has had charge of the preparations of the fleets for possible war with Russia, worked forty years without recognition, except as a commander. And for forty years he kept silence, says an English writer. Now he is at the head English writer. Now he is at the head of the British navy. It is the greatest position in the British empire to which a subject can aspire. Why? Because he is the chief man in the fighting fleets "whereon, (as the articles of war say) under the good province of God, the wealth, peace and safety of the country doth chiefly det

sod, the wealth, peace and safety of the country doth chiefly depend."

Sir John Fisher personifies the taciturnity of the navy, but nevertheless the force of his will circulates through the network of veins and arteries in the body of the Mediterranean squadron. The will of the commander is the true life blood of a fleet which has been raised by Fisher to a pietch of perfection that has never yet been reached in a body of ships built and commanded by mortal men.

In eighteen months Sir John Fisher raised the Mediterranean fleet from an eleven-knot standard with repeated breakdowns to a fourteen-knot standard without breakdowns. At first he was not popular, but the splendid efficiency he has evoked has completely won the respectful and admiring confidence of all hands. Efficiency extends to every detail. Perfect harmony exists between the parts of the machine Loyalty, not lip service, pervades all ranks.

HE NEVER POSES. This still, strong man has a personal-ity at least as fascinating as that of any popular here. His chief foible is detestation of notoriety. He does not detestation of notoriety. He does not advertise. He never poses, but it is impossible to be in his company for five minutes without perceiving that he is no ordinary personage. With the simple, almost bluff directness of the hearty Englishman; thick set, standing four-square to the winds of heaven, he inspires a sense of confidence. In the plain clothers he affects on shore he spires a sense of confidence. In the plain clothes he affects on shore he looks like a country gentleman. There is a genial simplicity in Lis

peech not untinged with humor which night lead the unwary to suppose that Sir John Pisher is an innocent and guileless sailorman, with determination and courage, perhaps, but in no way exceeding the average of his countrymen in the arts of bending people to his will or in the possession of unusual intellectual power. Shrewd observers, however, soon detect the presence of a strange quality of subtlety in the man. It is as rare as it is fascinating, in his speech, countenance and bearing he is as far removed from Machiavellianism or Asiatic craft as it is possible to cenceive.

But the quality of imagination, which embles him to penetrate motives, to perceive with lightning glance the cen-Bir John Fisher is an innocent and

"Ever given dinners to royalty in London?" I asked.

"Well, rather," he replied. "The present King, then the Prince of Wales, used to dine here often on Sunday nights. One day the chef from Marlborough House came to instruct me as to what His Royal Highness and party, including the Duke of Cambridge and Lord Rosebery, would require for dinner on the following Sunday, and he told me this. Once when there was a particularly large dinner party at Marlborough House. His Royal Highness happened to fancy a certain kind of fish that was served. He called for more and was informed that there was no more. 'How many pounds of that were bought?' he asked. The reply was, 'A hundred pounds.' Then next time,' said His Royal Highness, 'buy half a pound extra, so that the head of the house can have a second plate.'

"The funniest thing happened here at breakfast one day when the Grand Duke Michael of Russia and Mr. J.

"The funniest thing happened here at breakfast one day when the Grand Duke Michael of Russia and Mr. J. Pierpont Morgan were in the dining-room. Word came down that the Grand Duke wished to know if we could prepare a kind of pancake common in Russia, called, I think, 'pleny.' By the oddest coincidence, Mr. Morgan sent down at the same time asking if we could make some ordinary American griddle cakes. Now, I wasn't sure of the Russian cakes, but I did can griddle cakes. Now, I wasn't sure of the Russian cakes, but I did know how to make the American sort. So I sent up two portions of the Amer-ican cakes, sending one to the Grand Duke, telling the waiter to ask in-nocently if that was what was wanted. The Grand Duke devoured them, asked for more, and thus I killed two ap-petites with one batter. "A queer incident happened when the Rajah of Baroda was here. He came in one evening with five Indian ladles

Didn't Want a Lawyer.

"I began to practice law in Dakota in Territorial days," said the lawyer from Chicago. "Our judges were sent to us, and some of them didn't know any more about law than they did about the political beliefs of the mound builders. One of them—I'll call him Jones—was so appalingly ignorant that it was a great relief when, on the admission of North Dakota to the Union, he left the bench and began to practice law. His successor was a man wholly without a sense of humor, and the only good thing he ever said in his life was wholly accidental. A man was brought to trial charged with selling liquor to the Indians. The judge asked him if he had a lawyer to defend him.

"No, said the man, "I don't want a lawyer." "Well," said His Honor, looking lawyer.'

pleasing as in their gorgeous gowning
which comes with the early frosts, but
in the somber browns and russets of
verdure and of the leaves that remain
that person who has the artist's appreciation for color charmonies will
find constant fascination. In these
days the chill in the air is only sufficient to set the blood a-tingling. The

King Draws a Prize. Here in the United States and King Draws a Prize.

Here in the United States and in Great Britain lotteries are strictly forbidden by the law, as constituting a reprehensible form of gambling. In a number of the continental countries of Europe, however, they are not only tolerated, but the system is actually employed by the national government and by the big cities to fill the coffers of the State and municipality. Especially in Italy, Austria, Germany, Spain, and Portugal do city and State lotteries flourish, and attention has lately been called to the matter by the fact that Don Carlos has won the grand prize of \$10,000 in the National Lottery of Portugal with ticket 2305. It seems that he takes a ticket for each of the drawings of the national lottery and has been doing so for years. This is the first time, however, that he has come out a winner, and he furnishes, It believe, the only instance of a crowned head securing what is known as the "Gros Lot" in one of these lotteries.

A few years ago the minister of war in Spain won the grand prize of the national lottery of that kingdom, but usually these windfails go to people in less affluent circumstances.—[Washing-

NAVEL ORANGES ACTIVE. There was a more active demand for California navel oranges in New York last week, especially for the finer grades wanted for the sholiday trade, and on Friday last prices showed an advance of 15c to 25c a box, as compared with those realized at the sale of the previous day. Florida oranges remained weak, with the great bulk of the offerings poor and wasty. Grape fruit was duli and unchanged. Fancy well colored oranges, of which the supply as yet is limited, are particularly wanted, and buyers are ready to pay good prices for them, shown by the fact that a car of Mariposa navels sold Friday at an average of \$3 a box, which is the highest this season, except for the first few arrivals.

FIGS IN NEW YORK SELL LOW. advertised to be sold at auction last Friday in New York, 200 cases were disposed of, but at low prices. The large bulk of the layer figs at Friday's sale was of only ordinary appearance, and in some the quality was poor. The demand from buyers was slow though had the limits been lowered, it is probable that the sale would have moved more quickly. The range of prices on layers was from \$%c for 2\frac{1}{2}\text{-inch down to \$4\frac{1}{2}\text{-for \$1\frac{1}{2}\text{-inch down to \$7\frac{1}{2}\text{-for \$1\frac{1}{2}\text{-inch down to \$7\frac{1}{2}\text{-for \$1\frac{1}{2}\text{-for \$1\text{-for \$1\text{-fo

On the whole there will be less of an after-holiday drop than is usual on account of the better condition of the fruit, and the good demand in the East. Redlands is rushing out fruit much faster than Riverside totaling for the season 405 cars, and 146,578 boxes. The Azusa-Covina-Glendora Fruit Company on Thursday last week shipped a car of fancy Azusa and Glendora navels to San Francisco, from which point they will go by fast steamer to Australla. SAN FRANCISCO, Dec. 22.—(Exclusive Dispatch.] Business in all lines of fruits continued of a tame joibling character today, and no unusual features developed in any department. Receipts of apples were light, but current offerings more than balanced trade wants, and previous prices continued unaitered. Fears moved slowly at previous prices, outlet at quotations. Citra fruit and saide from a few small orders for shipment to Hawaii on the steemer sailing tomorrow, business was practically at a standatill. Three carloads of oranges arrived, and with plenty of cheap stock pressing for saie, the market was easy. Trading in potatoss was wholly of routine character, but the general anticle are of sancy dead to previous firm in their demands for outside figures. The market cinduced freely stocked with low-grade offerings that were allow of sale despite the concessions offered. Sweet potatoes met with a steady call at previous prices. Onlone were plentful and in moderate request, the outside quotation continuing an extreme for best descriptions. The miscellations the South, but under good demand freely from the South, but under good demand freely well absorbed at sustained figures, and market lengths.

OPENING THE DOOR.

The Way in Which it is Done is Gen

The Way in Which it is Done is Generally an Index to Character.

(Chicago Tribune: I A person's character is inseparable from him. Never can he extiricate himself from its dominion. It is his partner for life.

Every word he utters, each step he takes, his very laugh, cough, anexe, or the way in which he eats his lunch. Nothing that we do but serves to make us known to those whose perception is keen enough to decipher its meaning.

But although it is an undeniable fact that "character" can be read from a person's exterior, is it, after all, so far-fetched a this such a comparatively simple feat as opening a door happens to be should be entirely without significance?

Tou admit that the mode of writing and of salutation, perhaps, carries a neaming along with it; yet do you deep any any meaning to an act, at once as a spontaneous and so individual, as the same and t

he appears to view. What will such a person be like? Well, a person who takes upward of half an hour to open a door will take, in all probability, a solid year and a half to do anything else. In other words, he will be slow, tardy, anxious and much inclined to put off what he should do today u..til tomorrow—or, at least until as late today as he possibly can. Such a person generally needs his battles fought for him by a forcible, spirited individual. The gentle, timid, quiet soul opens the door noiselessly. You don't even know that he or she has come into the room at all. Their footfall is almost inaudible, and save for the testimony of your sense of sight you would say that nobody else was present. This person is wanting in strength of character, lacking in decision, so do not put your faith in him too much. He will back out of difficulties and should not be relied upon in any great degree.

On the other hand, the brisk, prompt turn of the door handle, followed almost immediately by the opening and closing of the door, suggests animation, resolution, alertness and dependability in an emergency.

dependability in an emergency.

Those people who bang at the door are uncouth, unrefined and more vigorous and well intentioned than subtle or discerning. Those, however, who tap gently possess feeling, and are sensi-tive and tenderhearted. Mirthful people perform a regular tattoo on the door,

WON HER SUCCESS. Los Angeles Girl Who is Making a

Stage. One of the "Champagne Dancers" in John C. Fisher's "Silver Slipper," which John C. Fisher's "Silver Slipper," which is coming to town shortly, is Eva Bennett, a Los Angeles girl who, not so very long ago, played with other little tots in barefoot glee through the summer shades of Central Park. Miss Bennett's former home is on West Sixth street, where she lived with her mother, and where, through reading and stories from the big world outside, she first formed her attachment for the stage.

After a number of appearances, Miss Bennett left Los Angeles three years

ago, fired with a determination to seek advanced tuition and to find success.

She went to London, and sought instruction in the dancing school of George Edwardes, who is known throughout the "profession" and its camp-following, as the greatest producer of musical comedies in the world. Just how long Henry W. Savage will leave the title in undisputed possession is a question, but he has it now.

Patrolman W. H. Wright the Victim of a Fatal Attack of Heart Disease.

Patrolman William H. Wright, a popular member of the police force, died suddenly of heart disease at his residence, No. 1324 Bellevue avenue, at 9:15 o'clock last night.

He was apparently in the best of health and spirits yesterday, and attended to his duties. He was a member of the morning watch, his beat being on Seventh street. Last evening he and Mrs. Wright retired early, as their custom. Shortly after 9 o'clock Mrs. Wright retired early, and noticing that her husband was not breadhing, she hurriedly investigated, and moticing that her husband was not and found that he was dead.

Wright was appointed a regular patrolman April I, 1903, and during his term of service his conduct was highly commended by his superiors. He is 35 year old. A widow and little daught for the funeral have not been completed, but the services will probably be in charge of the Policemen's Relief Association.

Mitten and His Dog.

Jack Mitten and his Newfoundland dog Prince, of Skagway, Alaska, appeared at the Sherman House the other night, but decided not to stay. Two difficulties stared them in the face. The first was that the gold hunter had run out of cash, and had only a bag of yellow dust to offer in return for lodging. The second difficulty was the clerk's refusal to allow the dog to share the miner's room.

"I wouldn't part with the dog for a night," said Mitten. "Either we sleep together or not at all. We've weathered it up on the Skagway for three winters—tented together, and all that, and we ain't going to part company here in God's country. That dog, sir, once saved my life."

He offered the clerk an ounce of gold dust, but received only suspicious looks.

"This is Chicago," said the clerk. "Only the coin of the realm goes here. Go down on Halsted street with your gold bricks."

Mitten, when he arrived, still wore his fur boots and sealskin gloves. His face was weatherbeaten and his collar was turned up about his ears. With his dog, he started out to find another hostelry.—[Chicago Tribuna. Mitton and His Dog.

Up to noon the precipitation was .55 of an inch, while reports from Fel Toro and sections of the San Joaquin ranch are to the effect that in the same time more than an inch had fallen. It is raining this evening, and indications point to a continuance of the storm. The rain will do great good to ranchers and stockmen, who have been suffering for lack of it several weeks past.

HIS PLEA NO GOOD. Judge West denied the application of Edward M. Kraemer today to be released from jail for contempt of court because he does not pay alimony to his divorced wife as ordered. Kraemer set up the plea that he was financially unable to meet the demands of the court's decree, but in spite of this affirmation on his part he was sent back to jail again.

An interesting experiment in road improvement is being made by residents of Ninth street, who have let to C. A. Baldwin the contract for surfacing the street with a double application of sand and oil. Should the venture prove a successful one it is probable other property owners will follow the same course for their streets. The estimated cost of the process is 25 cents a front foat.

CUTTING AFFRAY IN SALOON IN SAN BERNARDINO.

Jack Curtis is Perhaps Mortally Wounded by Sidney Mee-Assailant Also Slashed With His Own Knife. New Version of Barstow Murder Brought Out at Inquest.

SAN BERNARDINO, Dec. 22.-Jack Curtis, foreman of the orange packing-nouse at Highland, whose home is sup-losed to be Los Angeles, was propably ataly stabbed tonight by Sidney Mee, posed to be Los Angeles, was prousely fataly stabbed tonight by Sidney Mee, son of a prominent pioneer family of this valley. Mee was slashed in the right temple with his own knife while resisting arrest. He is now in jail. Biceding from seven terrible wounds, Curtis was carried into the office of a physician, where his injuries were dressed, and in an unconscious state he was removed to the hospital, with little chance of surviving the night. The affray took place in the M. & O. saloon in this city. Mystery surrounds the cause. All that Mee will say is that he will kill Curtis on sight. While the surgeons were dressing his wound he made frantic efforts to tear away to put his threat into execution. Curtis has been too low to make a statement at any time since the cutting. The men met in a saloon early this evening, when Curtis placed his hand upon Mee's shoulder. Instantly Mee struck Curtis a staggering blow, following it up with others, forcing Curtis to defend himself until he saw an opportunity to escape, and as he turned to flee Mee whipped out a long-bladed

what had occurred, all his mind being a complete blank concerning the shooting or how he secured the revolver. Explaining how he managed to get into the car and be sealed up, he states that a hobo sealed him in, after he had broken the original seal, and got a new one from the pumphouse at Hinckley, but this is not believed by the officers, and in all probability a thorough investigation will be made by the grand jury, as it is surmised that the train crew assisted him in his efforts to escape.

forts to escape. He was formally charged with mur-He was formally charged with murder this afternoon, and the case will be taken up by the grand jury next Tuesday, when a number of witnesses of the tragedy will be brought in from Barstow. This will make it unnecessory to take him back to the scene of his crime, which is fortunate for him, as the citizens would probably make a desperate attempt to lynch him, were he to appear there again.

The inquest over the remains of Louie Depuy, Wilson's victim, was held by Coroner Pittman at Barstow yesterday afternoon, and the remains were taken to Los Angeles this morning for interment. The proceedings were attended by a great mob of miners and trainmen, attracted from camps and towns 100 miles distant by the proceedings of the proceedings were attended by the proceedings were attended towns 100 miles distant by the proceedings of the severational killing.

were taken to Los Angeles this morning for interment. The proceedings were attended by a great mob of miners and trainmen, attracted from camps and towns 100 miles distant by the news of the sensational killing.

The inquest brought out an entirely different version of the killing than has yet been published. It appears that Wilson was asleep in Mosely's sakoon and Depuy, acting with a desire to have some fun, handcuffed and shackled the sleeping man. When Wilson awoke he was furious. Depuy tried to release him, and being unable he called in Constable Weber, who soon had him free of the irons, but he was still in a towering rage, and the officer removed him from the saloon. They had hardly stepped outside when Wilson disarmed Weber, and rushing into the saloon fired at Depuy as the latter ducked his head behind the bar for protection. The builet glanced on the edge of the bar and entered the side of Depuy's head, burying itself in his brain, causing instant death.

Wilson beat a retreat to a restaurant which is separated from the saloon by glass doors, and while standing there Mrs. Shay, proprietress of the place, put her hand on his shoulder, and said: "Come, Shorty, you've fired one shot; that's enough. Now give me the revolver."

Wilson replied with a remark that he would bore Depuy again and just then Constable Weber and Fireman Hunt, who were in the saloon, commenced to fire through the glass doors, Wilson returning the fire and being slightly wounded on the shoulder. He turned and fied.

Someone must have given him cartridges for his revolver, for he emptied

He turned and fled.
Someone must have given him cartridges for his revolver, for he emptied it during the fight in the saloon, and when the weapon was found at Mojave every chamber was filled.

SUDDEN DEATH. William Devine of Los Angeles died suddenly tonight in the office of Drs. Rowell & Mills, where he had been carried in an unconscious condition from a restaurant on D street. Devine had ordered a meal and the next min-ute moaned and fell. He had hardly been placed in the surgical chair when ROWE WAS NEGLIGENT.

The damage suit brought against the Santa Fé by Mrs. Edwin Rowe, for the death of her husband, who was kille death of her husband, who was killed here last April by a passenger train, was ended this morning when Judge Biedsoe returned judgment in favor of the railroad, claiming that Rowe was negligent, and therefore the company was not responsible for his death. This is the second suit in a few days where the alleged negligence of the plaintiff has saved the railroads from paying days agreed.

LA CANYADA.

PUMPING PLANT BURNED. LA CANYADA, Dec. 22.—A pumping piant, owned by L. G. Allen, was totally destroyed by fire yesterday. The cause is unknown, as Mr. Allen was not at the plant when the fire commenced. It was thought that the engine had exploded, but as the building showed no signs of demolition, it is conjectured that it was a case of carelessness or signs of demolition, it is conjectured that it was a case of careiessness or incendiarism on the part of a party of hunters who were at the plant a short while before the fire began. From the pumping plant the fire spread to the brush-covered hills, where it was extinguished by a party of fire fighters under Forest Ranger Philip Beague. The loss to Mr. Alien is about \$500.

Edna Pettit, daughter of Postmaster Pettit, was married last evening in Los Angeles to Earl Haskins of that city. The bride is well known here, and has many warm friends. The groom is a prosperous young business man of Los Angeles. They will be at home to their friends after January I at No. 449 Avenue 28, Los Angeles.

Mr. Hellmer has recently sold his twenty-five-acre ranch on Burr avenue to a capitalist of Chicago.

J. R. Alexander has sold his ten-acre ranch to T. Barnes of Los Angeles; consideration stated, \$5500.

Mrs. L. S. Guderlan, who was recently appointed postmistress, will take the office January I. It will be in the store which is being built by her husba.d on Michigan avenue.

LORDSBURG.

TREE VANDALS ARRESTED. LORDSBURG, Dec. 22.—Seldom have the forest rangers had so much difficulty to prevent the deforesting of the government reservation by knaves and vandals as they have now, when the demand for Christmas trees is so great. There are many young pine trees on the forest reserve above here, and but for the eagle eye of Ranger S. B. Clifton, these would have been ruthlessly destroyed. So eagerly are these trees sought after that men will drive to the head of the cañons, and leave their horses while they climb the steep mountain sides in order to get the trees. It is said that no man can set foot in these cañons, and much less drive into them, without being detected by Ranger Clifton, and woo betide any vandal who falls into his hands, for he is no respecter of persons. This morning Clifton found a team and wagon tied up in a secluded spot in the cañon, and after following the fool marks for several miles up the mountains, he came up with two men in the act of cutting down pine trees to be sold for Christmas trees. These men had come nearly twenty miles to get the trees. Miss Delia J. Moss and George T. Lock, both of Lake C ries, La., were married at the home of Mayor Cyrus Trueblood on North Friends avenue, this morning at 10 o'clock. The ceremony was performed by Rev. Levi Mills, pastor of the Friends Church, with the bridal couple standing under a canopy of smilax and white carnations. The rooms were beautifully decorated in green and white, ferns, illies and roses predominating. The bride was charming in a traveling gown of champagne broadcloth, trimmed with velvet and lace. The is a beautiful young woman of 29, who came here about two months ago with her father, Dr. A. H. Moss, for the latter's health. The groom is a wealthy lumberman of Louislana, about 30 years of age, and identified with some of the largest lumbering interests of that State. Immediately after the ceremony the young people drove to Los Angeles and will be at the Angelus for a week, after which they will depart for an eastern trip, via San Francisco. They will be at home at Lake Charles, La., in about thirty days.

[London Chronicle.] A London chemist has assured me that he sells on the average 100 bottles of chlorodyne a week, and knows that 3 per cent, of his customers are addicted to the habit

his customers are addicted to the habit.

After all, chlorodyne is merely a palliative, not a cure, as some vainly imagine, and to fly to it for solace upon the least ache or pain is like fraternizing with a vampire.

Among the society women arsenic is in great vogue, largely on account of its "beautifying" effects. Those who are more concerned with brilliancy of conversation than of complexion give the preference to sal volatile and ether. Ether drinking as a secret drug habit is especially popular in London, and during the season large quantities of the mixture are sold. The rapid ex-

is especially popular in London, and quring the season large quantities of the mixture are sold. The rapid ex-hilaration produced by ether compounds and the transparent complexion of the arsenic taker are paid for dearly by the physical ailments that ensue. Some women fancy various aromatic extracts such as east de colorne. Some women fancy various aromatic extracts, such as eau de cologne, lavender water, etc. As these extracts are often made with the coarsest spirit, the result of this tippling may easily be imagined.

ism. The drug is slowly inhaled, and the dreamy forgetfulness, the sense of pleasant languor begotten, followed by complete oblivion, has a wonderful fascination for those suffering from insomnla or worry. Sickness and depression are the immediate penalties exacted, and if the habit be persisted in an inflammatory condition will supervene which ends in death. Indeed, chloroformism is one of the must subtle and dangerous habits, perhaps more so than the better-known chloral habit, which is not so popular as formerly among sufferers from sleeplessness.

Of late there has been a great demand for certain coal tar derivatives, such as antipyrin, phenacetin and sulphonal to combat headaches or insomnia. Atthough valuable in small quantities and on occasions, these drugs are too frequently made crutches of. The taker should bear in mind that, taken heedlessly, they produce distressing nervous symptoms. Phenacetin, for instance, is by no means the harmless remedy some people imagine. Indeed, at its best, the drug habit is a misfortune; at its worst, a tragedy.

Phenomenal Reductions in Christmas Merchandise

READ every item in this page ad carefully for it is the greatest bargain giving announcement of holiday goods ever attempted in Los Angeles. It has become a custom to not take decisive mark-downs on Christmas goods until after Christmas, but as every one knows every store always has sufficient quantity of toys, dolls and other goods for a clearance after Christmas or which low prices are put; but we have decided on an innovation this season of offering the two last days of Christmas shopping thousands of dollars' worth of Christmas merchandise at very material reductions in price. For this purpose we have taken all old lots and broken lines of every grade of toys, dolls and other novel-ties as well as holiday wearables and offer them to you for Friday as real bargains which your own good judgment will appreciate and will prompt liberal buying.
